

Prowler*

Weapons/Reconnaissance Platform

At home in any terrain, the Prowler is the most rugged, maneuverable and dependable weapons/recon platform in the world.

The configuration of this Rugged Terrain Vehicle (RTV) can be easily adapted to a wide range of tactical mission and support requirements.

Its small dimensional envelope and light weight makes it easily transportable by the widest range of surface and aerial modes.

This vehicle's hallmark all terrain performance – agility, stability, endurance and nimble handling - are the result of Prowler's:

- Powerful Engine
- Fully Automatic 4 Wheel Drive
- Automotive Style Controls
- Front and Rear Independent Wishbone Suspension
- Low Center of Gravity, Tight Turning Radius and Ample Ground Clearance

Designed to add a new dimension to tactical assault and support capability concepts, Prowler brings dependable:

- Rugged Reliability
- All Terrain Mobility
- Ease of Operation
- Minimal Maintenance
- Worldwide Logistic Support

Rough, Ready & Rugged!

With more payload, rackspace and jumpseats, the new Prowler Weapons/Reconnaissance Platform will meet and exceed your light tactical vehicle mission requirements.

We Put the State-of-the-Art to Work
